

Company Presentation

From the beginning

Started in 2005 by Andrea and Roberto, 2 friends obsessed by:

a common passion: building DIY Hi-Fi speakers since they were teenagers

a common dream: bringing back Hi-Fi sound in people living spaces, avoiding mass market plastic speakers

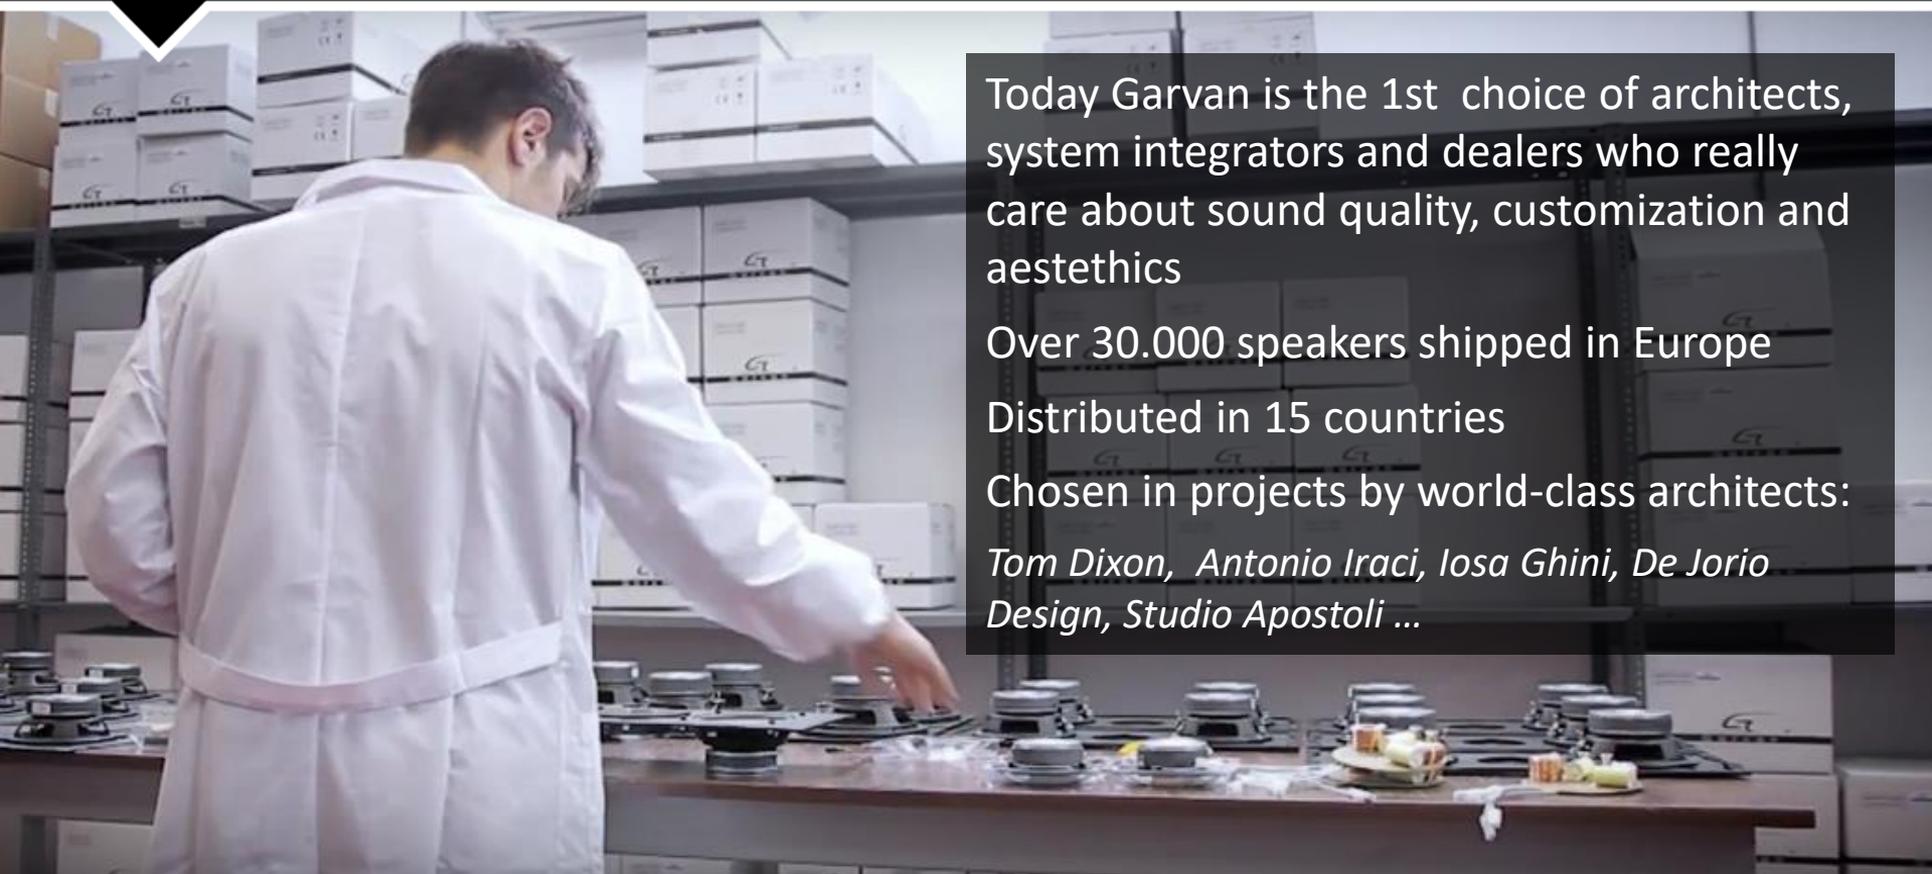

From the beginning

At the beginning Garvan was referred to as an “ankle biter”

A small dog that cannot raise at your level

Garvan Acoustic Today

Today Garvan is the 1st choice of architects, system integrators and dealers who really care about sound quality, customization and aesthetics

Over 30.000 speakers shipped in Europe

Distributed in 15 countries

Chosen in projects by world-class architects:

Tom Dixon, Antonio Iraci, Iosa Ghini, De Jorio Design, Studio Apostoli ...

Garvan Acoustic's Headquarters

Products entirely
designed and made in
Italy, from concept to
production

3+1+1 year warranty

- WW Shipping
- Technical Support

F A E N Z A
THE ITALIAN CITY OF CERAMICS

Faenza, and beyond.

We are where Physics of Sound
and Science of Materials meet
Beauty, Made in Italy and
Artistic Thinking

Our Belief and Our Promise

We work to put our know-how at the disposal of
creativity and design.
We help projects come true.

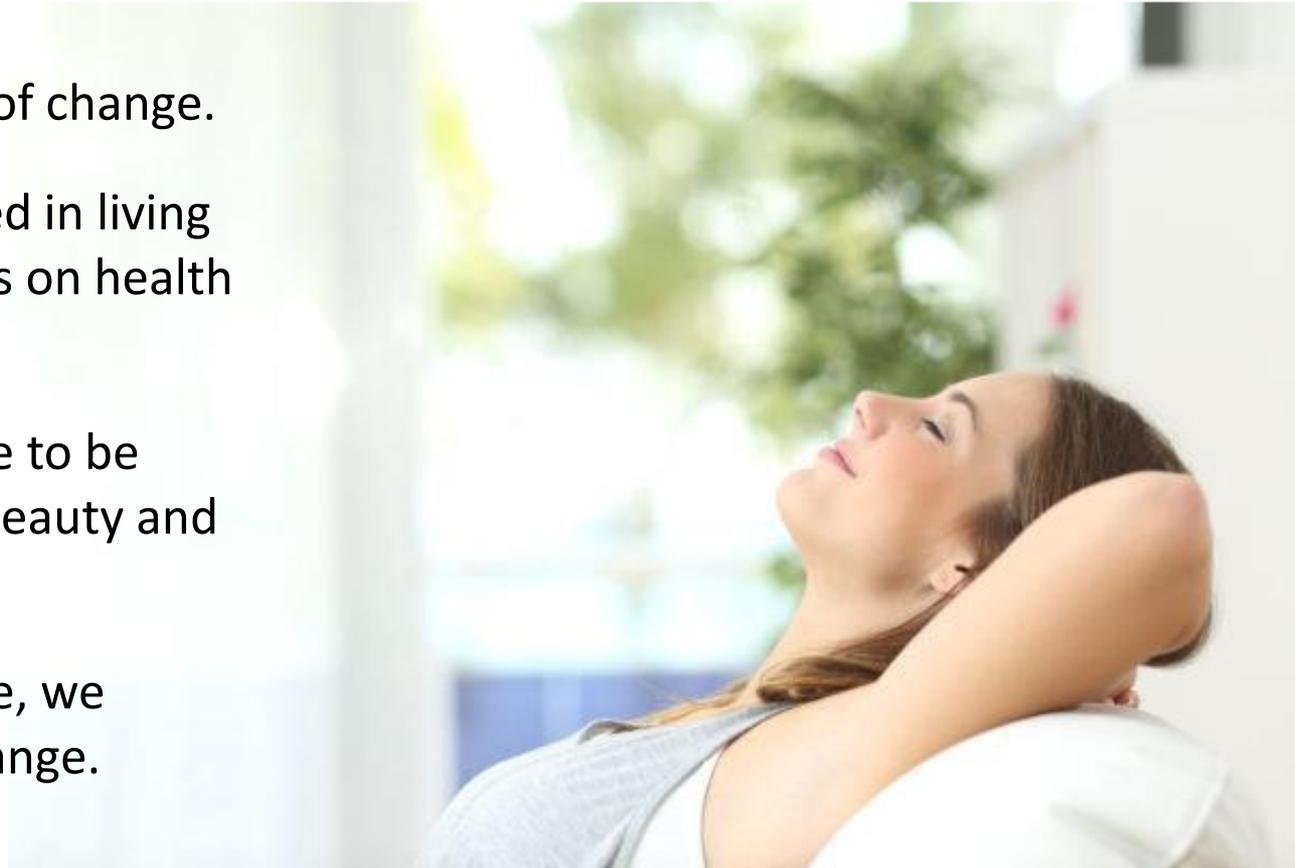

Our Belief and Our Promise

Our goal is to be a means of change.

Music, properly reproduced in living spaces, has positive effects on health and well-being.

We believe people deserve to be surrounded by harmony, beauty and sound.

Living space by living space, we step in and enable this change.

How do we commit to our promise?

We design and handcraft speakers offering:

Flawless integration in any living space or architectural project

Memorable listening experience

High value raw materials endless finishings or custom options

Flawless integration in any living space or architectural project

In-Wall Hi-Fi Architectural Speakers

Garvan Acoustic invented the flush-mount system in 2006. Today our product range is the most complete on the market featuring a minimal design.

The only speakers fully customizable, tailor made and plastic free.

Wide range of models for plasterboard and concrete walls, flush mounted and with metal frame.

New Easy Fit installation system for plasterboard and concrete without need for any further finishing.
