OVERVIEW DESCRIPTION – UNIQUE DESCRIPTION PRODUCT

2 Channel Speaker, 1x 2-way 160 mm (6.5") in-wall and in-ceiling speaker, 150 W max, 1x 160 mm (6.5") coaxial, 100 W max with mounting frame and speaker body in steel, designed to ensure optimum performance and durability, even in difficult environments. This product supports FiloMuro™ in-wall installation, suitable for plasterboard. This speaker integrates a coaxial designed to perform the function of the half central channel. By doing so, with a pair of these speakers to the right and left of the TV, it is possible to eliminate the central channel normally located under the TV of HT 5.1 systems installed in living rooms by splitting it and integrating it into the same side channels made up of this speaker system. The 6.5" (160 mm) woofer features a ferrite magnet assembly, a treated cellulose cone, a rubber surround and a 1" (25 mm) treated silk dome tweeter. The 6.5" (160 mm) coaxial (which acts as a half-center channel) features a ferrite magnet assembly, a treated cellulose cone, a rubber surround and a 0.5" (14 mm) treated silk dome tweeter is placed concentrically to the woofer for very open sound propagation and balanced sound across the frequency range for excellent vocal intelligibility. The connection to the amplifier is via spring terminals that can accommodate cables up to AWG14 gauge. The aesthetic cover is firmly fixed by powerful neodymium magnets. The grill cover can be customized in various materials, including perforated steel that can be painted white or pre-painted according to RAL or NCS codes and even treated with galvanic effects. In addition, it is possible to use fabric covers, available in a wide selection of textures and colors, as shown in the Garvan sample books.

KEY FEATURES

2-Channel System

Combines a 2-way speaker and a coaxial for versatile use.

Home Theater Solution

Integrates left, right, and half-center channels in one design.

High Power Handling

75W + 50W AES / 150W + 100W continuous.

Wide Frequency Range

60 Hz – 20 kHz (main) / 80 Hz – 20 kHz (coaxial).

Enhanced Vocal Clarity

Coaxial driver ensures clear dialogue.

Flush-Mount Installation

Filo-Muro™ system for plasterboard and modular walls.

Customizable Grille

Perforated steel or fabric cover with magnetic fixing.

Robust Construction

Steel frame and high-quality materials.

Easy Connection

Push terminals for cables up to AWG14.

Extended Warranty

3+1+1 years included.

INSTALLATION NAME		Flush-Mount™ Plasterboard
Installation Type		In Wall / In Ceiling Speaker, free air
Surface Compatibility		Suitable for installation in Drywall, wooden panels, modular panel, and similar.
Installation Requirements		Required support thickness: 12,5-25mm
SINGLE LOUDSPEAKER PERFORMANCE		
AES Power Handling		75 W + 50 W
Continuous Power Handling ***		150 W + 100 W
Sensitivity 2,83V / 1m ****		87,5 dB + 89,5 dB
Sensitivity 1W/1m ****		87,5 dB + 89,5 dB
Calculated Maximum SPL @ 1m*		118 dB + 117,5 dB
TRANSDUCER		
Type		2 Way + Coaxial
Nominal size		1x WF 160 mm + TW 25mm / WF 160 mm + TW 14mm
Nominal Impedance		8Ω + 8Ω
Loudspeaker EQ		Not required, Garvan Preset EQ, Filter and protection available
Recommended High-Pass Filter Protection		55 Hz + 60 Hz with 48 dB/Oct. High pass Filter
Frequency Response (-3 dB)		(60 Hz - 20 kHz **) + (80 Hz - 20 kHz **)
Frequency Range (-10 dB)		(53 Hz - 20 kHz **) + (60 Hz - 20 kHz)
Nominal Coverage Angle (1 KHz - 4 kHz)		120° + 90°
Nominal Coverage (1 KHz – 10 kHz)		90° + 90°
PHYSICAL		
Frame Material		zinc-plated metal
Speaker support Material		Lacquered or galvanic metal support
Cover		Lacquered or galvanic metal Grille/ Brushed stainless steel Grille / Fabric covered frame.
ENVIRONMENTAL FEATURES		
Environment of Use		Indoor environments
Operating Temperature Range *****		
environmental protection.		
Connectors		"Push connector, mounted on crossover and on speaker coax. Accepts 18 AWG (0.8 mm ²) to 11 AWG (4,17 mm ²) size wire.
Maximum Ceiling Thickness
