2 extra years at no additional cost.

## OVERVIEW DESCRIPTION – UNIQUE DESCRIPTION PRODUCT

In-wall and in-ceiling 6,5" (160 mm), 100 W max, coaxial in-wall and in-ceiling speaker with steel mounting frame and speaker body, designed for optimal performance and durability, even in harsh environments. This product supports recessed installation with various integration solutions, including FiloMuro™, suitable for plasterboard and masonry walls, and EasyFit™, ideal for installation in plasterboard walls or other materials such as wood paneling, metal, and porcelain tiles, with thicknesses ranging from 4 to 40 mm. The 6,5"(160 mm) coaxial loudspeaker has a cataphoresis-treated magnetic assembly for corrosion resistance, a treated cellulose cone, a rubber surround, and a 0.5" (14 mm) neodymium tweeter concentrically aligned with the woofer for a balanced, linear sound throughout the frequency range and excellent intelligibility on vocals. Connection to the amplifier is via spring-loaded terminals that can accommodate cables up to AWG14 gauge. The aesthetic cover is securely attached by powerful neodymium magnets. The grille cover can be customized in various materials, including perforated steel that can be painted white tinted or repainted according to RAL or NCS codes and even treated with galvanic effects. In addition, fabric covers can be used, which are available in a wide selection of textures and colors as shown in Garvan's sample books.

## KEY FEATURES

### 3" (76 mm) Full-Range Driver

Natural and well-balanced audio with clear voice reproduction.

### High SPL Output

Reaches up to 111.5 dB SPL @ 1 meter with 80 W max power.

### Wide Frequency Response

88 Hz – 20 kHz (-10 dB), ideal for speech and background music.

### Sturdy and Compact Build

Steel frame and marine-grade plywood backbox ensure durability.

### FiloMuro™ Masonry Integration

Flush-mounted system for masonry walls with a clean, seamless finish.

### EasyFit™ Installation

Tool-free front mounting, compatible with panels from 4 to 40 mm.

### Versatile Aesthetic Options

Customizable grille: perforated steel, galvanic treatments, prints, or acoustic fabric.

### Magnetic Grille Attachment

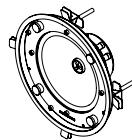

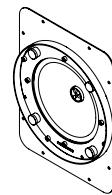

Strong neodymium magnets for fast and secure placement.

### Spring Terminal Connections

Simple wiring with support for cables up to AWG14 (2.08 mm<sup>2</sup>).

### 3+1+1 Year Warranty

Long-term warranty included, extendable at no extra cost.

#### NOTES:

\* Maximum SPL calculated from sensitivity and power handling specifications, using a signal with crest factor 4 (12dB), exclusive of power compression.

\*\* With dedicated preset

\*\*\* Power on Continuous Program is defined as 3 dB greater than the Nominal rating.

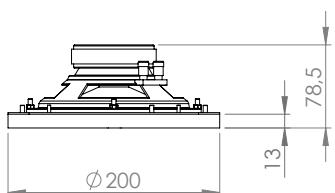

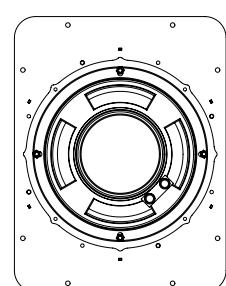

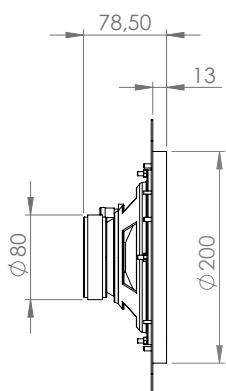

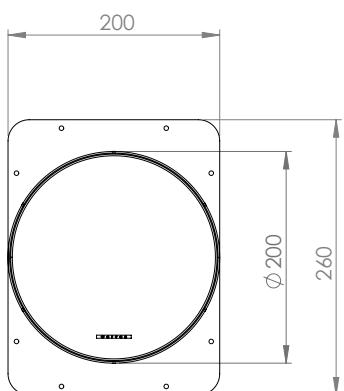

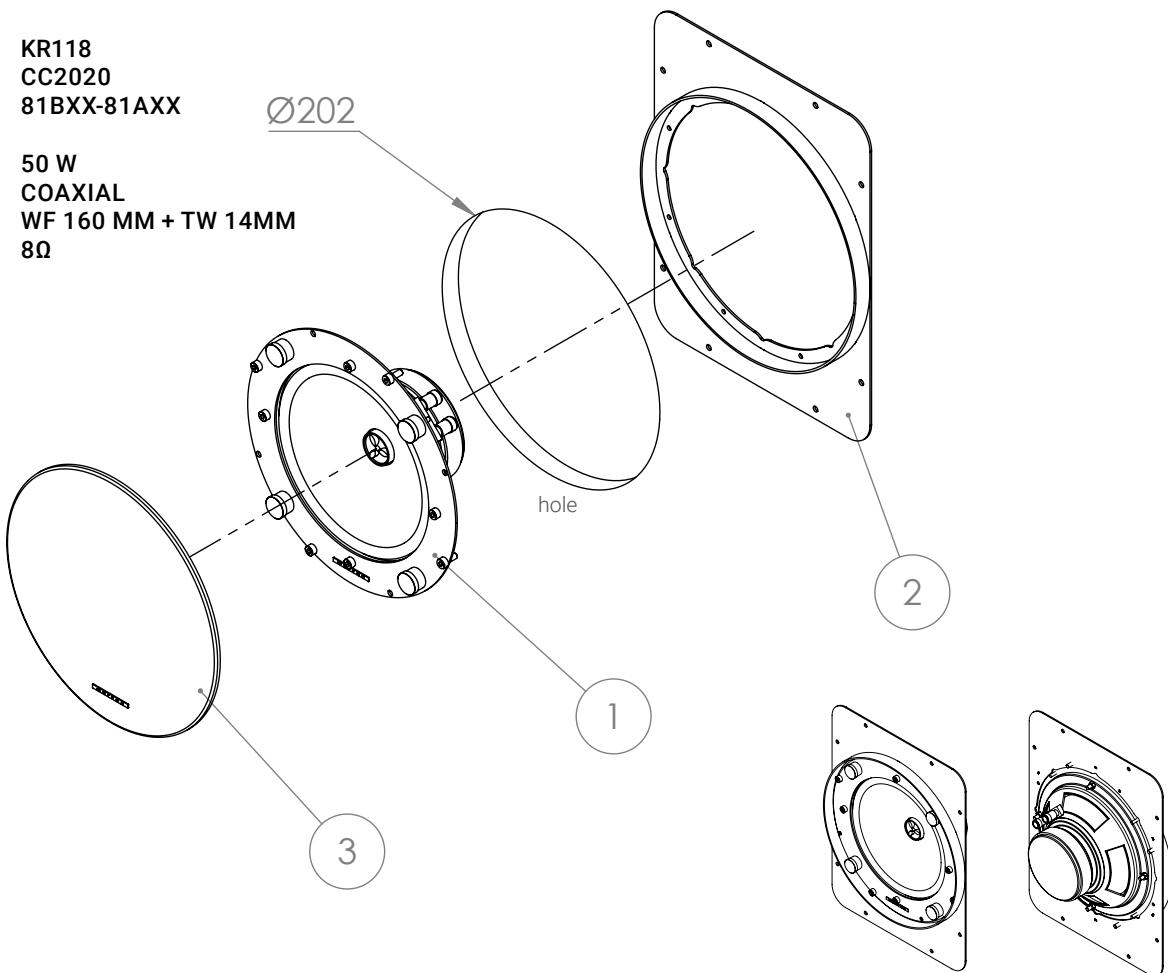

\*\*\*\* average SPL measured from 200 Hz to 1,5 kHz

\*\*\*\*\* With dedicated ignition and maintenance process
