## OVERVIEW DESCRIPTION – UNIQUE DESCRIPTION PRODUCT

In-wall and in-ceiling 6.5" (160 mm), 240 W max coaxial in-wall and in-ceiling speaker with steel mounting frame and speaker body, designed for optimal performance and durability, even in harsh environments. This product supports recessed installation with different integration solutions, including FiloMuro™, suitable for plasterboard and masonry walls, and EasyFit™, ideal for installation in plasterboard walls or other materials such as wood paneling, metal, and porcelain tiles, with thicknesses between 4 and 40 mm. The 6.5" (160 mm) coaxial loudspeaker features a neodymium pure magnet assembly with cataphoresis-treated plates for corrosion resistance, a treated cellulose cone, a rubber surround, and a 1" (25 mm) neodymium tweeter coaxially aligned with the woofer for full-bodied, balanced, linear sound throughout the frequency range and excellent intelligibility of vocals. Connection to the amplifier is via spring-loaded terminals that can accommodate cables up to AWG11 gauge. The aesthetic cover is securely fastened by powerful neodymium magnets. The grille cover can be customized in various materials, including perforated steel that can be painted white or prepainted according to RAL or NCS codes and even treated with galvanic effects. In addition, fabric covers can be used, which are available in a wide selection of textures and colors, as shown in Garvan's sample books.

## KEY FEATURES

### 3" (76 mm) Full-Range Speaker

Designed for natural, balanced sound with high vocal clarity.

### Strong SPL Output

Up to 111.5 dB SPL @ 1 meter with 80 W max power.

### Wide Frequency Response

Covers 88 Hz – 20 kHz (-10 dB), ideal for ambient music and speech.

### Minimal Frame Design (30 mm)

Narrow visible border for sleek architectural integration.

### Marine-Grade Durability

Steel mounting frame and phenolic marine plywood backbox for longevity in harsh environments.

### FiloMuro™ Flush Mount for Masonry

Enables seamless installation in plastered brick or concrete walls.

### EasyFit™ Tool-Free Mounting

Supports panel thicknesses from 4 to 40 mm (drywall, wood, metal, porcelain, etc.).

### Aesthetic Grille Customization

Options include perforated steel (paintable), galvanic finishes, prints, and colored acoustic fabrics.

### Magnetic Grille Attachment

Powerful neodymium magnets ensure secure and invisible cover fastening.

### Extended Warranty Included

3+1+1 years of coverage with free extension upon registration.

INSTALLATION NAME	Flush-Mount™ Plasterboard	Easy-Fit™

#### NOTES:

\* Maximum SPL calculated from sensitivity and power handling specifications, using a signal with crest factor 4 (12dB), exclusive of power compression.

\*\* With dedicated preset

\*\*\* Power on Continuous Program is defined as 3 dB greater than the Nominal rating.

\*\*\*\* average SPL measured from 200 Hz to 1,5 kHz

\*\*\*\*\* With dedicated ignition and maintenance process
