OVERVIEW DESCRIPTION – UNIQUE DESCRIPTION PRODUCT

6.5" (160 mm) 2-way wall and ceiling speaker, 300W max, with mounting frame and speaker body in aisi.316L stainless steel, backbox for masonry installation in marine phenolic plywood. Designed to guarantee great performance and durability even in very difficult environments such as saunas, swimming pools, boats, marine bathing establishments. This product supports FiloMuro™ recessed installation, suitable for plasterboard. The 6.5" (160 mm) woofer speaker is equipped with a ferrite magnet group, a treated cellulose cone, a rubber surround and a 0.8" (20 mm) treated silk dome tweeter for a full-bodied and balanced sound throughout the frequency range and excellent voice intelligibility. The connection to the amplifier is via spring terminals that can accommodate cables up to AWG11 gauge. The aesthetic cover is firmly fixed to the neodymium. The grill cover can be customized in various materials, including perforated steel that can be painted white or pre-painted according to RAL or NCS codes and even treated with galvanic effects.
